KWorld Unveils Refreshed Multimedia Product Lineup at Computex 2011

Tuesday, 31 May 2011, 11:15pm (3 weeks, 2 days ago)

KWorld PCTV

TAIPEI, TAIWAN - KWorld has launched a whole new set of products that are designed to enrich consumers' multimedia center and audio experience. KWorld is displaying its various product lines intended for PCTV, multimedia editing, home media center, and audio playback at Computex in Taipei.

PCTV Series

KWorld's PC100-S and PC231-D are aimed at users who would want to enjoy their favorite analog or satellite digital TV program on their computers. The PCTV series is bundled with "TiVme" software that allows users to enjoy various functions and features like silent recording, scheduled recording, and FM radio. The PC100-S can channel free-to-air digital satellite (DVB-S) on a desktop computer. It also has an interface with low-profile design for mini-PCs and additional AV/S-Video inputs for other video sources. With the PC231-D, users can enjoy watching and recording free-to-air digital terrestrial TV or worldwide analog TV as well as listen to FM radio.

KWorld Media Center

Home Media Center

Under the Home Media Center category, KWorld has developed the M300 and the M210. With these new products, users can watch media files on TV in high definition. These offerings can decode a variety of audio, video, picture, and subtitle sources. It also includes a smart software application for encoding any format at up to 1920 x 1080 video resolution. The M300 and the M210 are equipped with HDMI, VGA, YPbPr and composite connectors.

The M210 enables users to go online straight to their media player and watch full HD movies or other programs from the Internet. This media player incorporates a 3.5-/2.5-inch removable hard disk device. The M300, on the other hand, supports Android 2.2, Google TV, and Browser, and has an external hard disk and U-Disk and SD/MMC/MS card reader.

KWorld Game Recorder

Multimedia Editing

The latest model for multimedia is the KWorld GM220 which comes with new features that gamers will enjoy. With this product, gamers will be able to record their best games and share it with friends and other players.

Now gamers will be able to explain clearer and easier the tricks or specific tasks for overcoming some difficult parts of the games. With the GM220, gamers will have options to display games on TV, record games while playing, burn edited files on different media, and upload recorded games to YouTube or on iPod/PSP.

KWorld Speaker System

Audio Series

KWorld is introducing new speakers with promising features that deliver remarkable performance. KWorld's speaker lineup includes the following:

G Gaming Series - designed for gamers, speakers under the lineup offer special functions to allow them achieve better fighting, racing, and RPG experience.

C Classic Series - sporting wood cabinets, these speakers offer comfort and artistic beauty.

T Take & To Series - these speakers suitable for anyone at an affordable price.

Z CitiZen Series - speakers that have more stylish and exclusive designs.
